Plant, Construction and Off-Highway Equipment

Spare Parts

Our range of spare parts for construction, plant and off-highway vehicles include universal joints, propshaft yokes, centre bearings and various other miscellaneous parts. In most cases you'll find spare parts available from stock for same-day collection or next-day delivery. All we need from you is an OEM part number, machine serial number or some dimensions.

Propshaft Repair and Remanufacture

We know how frustrating it can be to have machinery breakdowns or a vehicle-off-road. That's why we have designed our operation to ensure that we can always offer a quick turnaround for your propshaft repair work. Whether you need a Universal Joint or Centre Bearing fitment, a propshaft straighten/balance or a complete propshaft remanufacture, we aim to have your work completed in 24 hours.

New Propshafts

Sometimes it's not economical to have a propshaft repaired, but this doesn't mean you should be punished with further vehicle/machinery downtime. If a repair is not an option, our range of new propshafts will get your vehicle back into operation. You'll find many new propshafts available in stock from Firow Propshafts and if it isn't, we'll get a new one built for you within 24 hours.

Brand names, original part numbers, names and descriptions are used for reference purposes only and do not necessarily imply that the goods are of original equipment specification. E. & O. E.

Suitable for:

Volvo Construction Equipment (VCE)
